

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION 10

1200 Sixth Avenue, Suite 900
Seattle, WA 98101-3140

DEC 02 2010

OFFICE OF
AIR, WASTE, AND TOXICS

Mr. Mark Asmundson
Director
Northwest Clean Air Agency
1600 South Second Street
Mount Vernon, Washington 98273-5202

Re: Approval of Northwest Clean Air Agency's Request for Updated Delegation of Authority for New Sources Performance Standards.

Dear Mr. Asmundson:

This letter is in response to your request for delegation of authority to implement and enforce certain New Source Performance Standards, 40 CFR Part 60 (NSPS). After review of your request, the U.S. Environmental Protection Agency (EPA) hereby grants this updated delegation request, as described below, to the Northwest Clean Air Agency (NWCAA).

Delegation Request

You requested to update delegation of the 40 CFR 60 standards that have previously been delegated to NWCAA and to obtain delegation of new standards that have been promulgated by EPA since your last delegation request:

40 CFR 60: A, D, Da, Db, Dc, E, Ea, Eb, Ec, F, G, H, I, J, Ja, K, Ka, Kb, L, M, N, Na, O, P, Q, R, T, U, V, W, X, Y, Z, AA, AAa, CC, DD, EE, GG, HH, KK, LL, MM, NN, PP, QQ, RR, SS, TT, UU, VV, VVa, WW, XX, BBB, DDD, FFF, GGG, GGGa, HHH, III, JJJ, KKK, LLL, NNN, OOO, PPP, QQQ, RRR, SSS, TTT, UUU, VVV, WWW, AAAA, CCCC, IIII, JJJJ, KKKK

Delegation of Authority

EPA has determined that NWCAA's regulations continue to provide adequate and effective procedures for implementing and enforcing the NSPS. Accordingly, EPA hereby approves your request for an updated delegation of authority to implement and enforce the NSPS standards identified in Enclosure A, subject to the following terms and conditions:

1. EPA is delegating the identified federal standards as in effect on April 5, 2010. New NSPS or NSPS that are revised substantively after that date are not delegated to your agency; these remain the responsibility of EPA.
 - a. Acceptance of this delegation does not commit your agency to request or accept delegation of future NSPS standards and requirements.
 - b. EPA encourages your agency to update your NSPS delegation on an annual basis. This could coincide with the updating of the adoption by reference of the Federal NSPS standards, which is important for maintaining EPA approval of your Title V operating permit program.
2. EPA is not delegating authorities under 40 CFR Part 60 that specifically indicate they cannot be delegated, that require rulemaking to implement, that affect the stringency of the standard, or where national oversight is the only way to ensure national consistency. Enclosure B identifies authorities that are excluded from this delegation.
3. This delegation is subject to all federal laws and regulations as well as EPA policies, guidance, and determinations issued pursuant to 40 CFR Part 60.
4. If both a state or local regulation and a federal regulation apply to the same source, both must be complied with, regardless of whether the one is more stringent than the other, pursuant to the requirements of section 116 of the Clean Air Act.
5. Implementation and enforcement of the delegated NSPS is subject to the current Compliance Assurance Agreement for Air Quality, signed by both the state and local agencies. This clearly defines roles and responsibilities, including timely and appropriate enforcement response and the maintenance of the Aerometric Facility Subsystem (AFS).
6. Enforcement of these delegated NSPS standards in your jurisdiction will be the primary responsibility of your agency. Nevertheless, EPA may exercise its concurrent enforcement authority pursuant to section 113 of the Clean Air Act with respect to sources which are subject to the NSPS.
7. Your agency and EPA should communicate sufficiently to guarantee that each is fully informed and current, regarding interpretation of regulations (including any unique questions about applicability) and the compliance status of subject sources in your jurisdiction.
 - a. Any records or reports provided to or otherwise obtained by your agency should be made available to EPA upon request.
 - b. In accordance with 40 CFR 60.9, the availability to the public of information

provided to, or otherwise obtained by EPA in connection with this delegation shall be governed by 40 CFR Part 2.

8. Your agency will be the recipient of all notifications and reports and be the point of contact for questions and compliance issues for these delegated NSPS standards. EPA may request notifications and reports from sources, if needed.
9. Your agency will work with owners and operators of affected facilities subject to an NSPS Subpart to ensure all required information is submitted to your agency. Your assistance is requested to ensure that this information – including excess reports and summaries – is submitted to EPA upon request.
10. Your agency will ensure that all relevant source notification, and report information is inputted into the AFS database system in order to meet your recordkeeping/reporting requirements.

The AFS reporting elements for “source information” that your agency is expected to provide includes, but is not limited to:

- a) Identification of source
 - b) Pollutants regulated
 - c) Applicability of subparts
 - d) Permit number for specific source or sub-unit
 - e) Dates of most recent NSPS compliance evaluations (inspections)
 - f) Compliance status
11. Your agency will require affected facilities to utilize the methods specified in 40 CFR Part 60 in performing source tests pursuant to the regulations. (See 40 CFR 60.8.)
 12. Changes and alternatives:
 - a. Your agency is not delegated authority to approve “major changes to test methods,” “major changes to monitoring,” “major changes to recordkeeping/reporting,” equivalent methods, alternative methods, emerging technologies, equivalent means of emission limitations, petition for exemptions, and time extensions. Such approvals remain the responsibility of EPA, please refer to Enclosure B for specifics.
 - b. Approval of “minor changes to test methods,” “intermediate changes to test methods,” “minor changes to monitoring,” “intermediate changes to monitoring,” and “minor changes to recordkeeping/reporting” is delegated to your agency.
 - c. Your agency must maintain a record of all approved alternatives to monitoring, testing, recordkeeping/reporting requirements and provide this list

of alternatives to EPA semi-annually or more frequently if requested by EPA. EPA may audit any approved alternatives and disapprove any that it determines are inappropriate, after discussion with your agency. If changes are disapproved, your agency must notify the source that it must revert to the original applicable monitoring, testing, recordkeeping, and/or reporting requirements. Also, in cases where the source does not maintain the conditions which prompted the approval of the alternatives to the monitoring, testing, recordkeeping, and/or reporting requirements, your agency must require the source to revert to the original monitoring, testing, recordkeeping, and reporting requirements, or more stringent requirements, if justified.

- d. For purposes of this paragraph, the terms in quotations have the meaning assigned to them in 40 CFR 63.90.
13. Your agency's delegation to implement and enforce NSPS under this delegation does not extend to sources or activities located in Indian Country, as defined in 18 U.S.C. 1151. Consistent with previous federal program approvals or delegations, EPA will continue to implement the NSPS in Indian Country in Washington because your agency did not adequately demonstrate authority over sources and activities located within the exterior boundaries of Indian reservations and in other areas of Indian Country.
14. Your agency's delegation to implement and enforce NSPS under this delegation does not extend to sources or activities under the jurisdiction of the Washington Energy Facility Site Evaluation Council (EFSEC). EFSEC has not requested an updated delegation. Therefore, EPA retains the authority to implement and enforce the NSPS over these specific sources.
15. Based on an opinion letter from an attorney for Puget Sound Clean Air Agency, EPA has determined that the restriction on the issuance of civil penalties in Chapter 43.05 of the Revised Code of Washington (RCW), often referred to as "House Bill 1010," does not apply to local air authorities in Washington.
16. The EPA Administrator delegated to EPA Region 10 the authority to delegate the NSPS to any state or local agency. The state or local agency that receives delegation from EPA Region 10 does not have the federally-recognized authority to further delegate the NSPS.
17. If EPA determines that your agency's procedure for implementing or enforcing the NSPS is inadequate or is not being effectively carried out, this delegation may be revoked in whole or in part by written notice of the revocation. Any such revocation will be effective as of the date specified in the notice.

Unless we receive negative comments from you within ten (10) days, this delegation is final and will be effective ten (10) days from the date of this letter. Otherwise, no further correspondence to EPA is needed from NWCAA regarding this delegation. We will publish a notice in the Federal Register periodically, informing the public of NWCAA's updated delegation.

If you have any questions, please contact Davis Zhen of my staff at (206) 553-7660 or email at zhen.davis@epa.gov.

Sincerely,

Richard Albright, Director
Office of Air, Waste and Toxics

Enclosures (2)

¹ Any authority within any subpart of 40 CFR 60 that is not delegable is not delegated.

Enclosure B¹

NSPS Authorities Excluded from Delegation

EPA guidance permits delegation to a State or local agency of all the EPA Administrator's authorities under 40 CFR Part 60 except those that require rulemaking to implement, that affect the stringency of the standard, or where national oversight is the only way to ensure national consistency. In addition, some sections of 40 CFR Part 60 specifically indicate that the authority may not be delegated. Listed below are authorities that are excluded from this delegation based on the legal and policy criteria discussed above.

Statutory Authorities:

Section 111(h)(3) of Clean Air Act	Equivalency Determinations Approval of alternatives to any design, equipment, work practice, or operational standard [e.g., 40 CFR 60.114(a) and 60.302(d)(3)] is accomplished through the rulemaking process and is adopted as a change to the individual subpart. This authority may not be delegated.
Section 111(j) of Clean Air Act	Innovative Technology Waivers Innovative technology waivers must be adopted as site-specific amendments to the individual subpart. The authority to grant waivers is not delegated. However, agencies may be delegated the authority to enforce any waivers granted by the EPA.

General Provisions Authorities:

Section	Authorities
60.8(b)(2) 60.8(b)(3) (partial limitation)	Approval of "Major Change to Test Methods" (Note: Any references to the authority in section 60.8(b) are reminders of the provisions of section 60.8 and are not separate authorities which can be delegated.)
60.9	Availability of Information Procedure for EPA - not applicable to State/local agencies
60.11(b) (partial limitation)	Approval of Major Change to Test Methods - alternative to "Method 9" test method
60.11(e)(7), 60.11(e)(8)	Approval of Alternative Opacity Standard
60.13(a) (partial limitation)	Approval of "Major Change to Monitoring" and "Major Change to Recordkeeping/Reporting" - specification of continuous monitoring systems requirements
60.13(d)(2) (partial limitation)	Approval of "Major Change to Monitoring" and "Major Change to Recordkeeping/Reporting"- continuous opacity monitoring systems
60.13(g)(1)	Approval of installation of fewer monitoring systems when one affected facility/source vents through more than one point (This is a major change to monitoring).
60.13(i)	Approval of "Major Change to Monitoring" and "Major Change to Recordkeeping/Reporting" (partial limitation)

Specific Subpart Authorities (the following list does not include approving alternative standards or major changes to test methods, monitoring, or recordkeeping/reporting, which are discussed above):

Section	Authorities
NOTE:	Subpart B and Subparts C, Cb, Cc, Cd, Ce Use of term Administrator in these subparts refers only to EPA Administrator
NOTE:	Subparts C, Cb, Cc, Cd, Ce These subparts are emission guidelines and compliance times for large municipal waste combustors, municipal solid waste landfills, sulfuric acid production units, and hospital/medical/infectious waste units. They are the basis for State control plans developed in accordance with Sections 111(d) and 129 of the Clean Air Act. Enforcement of these subparts requires submission of a plan to EPA for approval.
60.47Da	Subpart Da - Fossil Fuel-Fired Steam Generators for which Construction is Commenced After August 17, 1971 Approval of emerging technology
60.44b(f)	Subpart Db - Industrial-Commercial-Institutional Steam Generating Units Approval of site-specific nitrogen oxide limit for sources combusting byproduct/waste or hazardous waste with natural gas or oil
60.44b(g)	Approval of waiver of nitrogen oxide limit for sources burning hazardous waste with natural gas or oil
60.49b(a)(4)	Approval of emerging technology

60.48c(a)(4)	Subpart Dc - Small Industrial-Commercial-Institutional Steam Generating Units Approval of emerging technology
60.56c(i) Plus...	Subpart Ec - Hospital/Medical/Infectious Waste Incinerators for Which Construction is Commenced After June 20, 1996 Alternative site-specific operating parameters Any other approval of alternative compliance demonstration (specifically restricted by 60.51c(i), therefore not limited to Amajor changes@)
60.105(a)(13)(iii) 60.106(i)(12)	Subpart J - Petroleum Refineries Alternative monitoring methods Alternative method of determining compliance
60.105a(b)(v)	Subpart Ja – Petroleum Refineries for Which Construction, Reconstruction, or Modification Commenced After May 14, 2007 Alternative monitoring methods
60.114a	Subpart Ka - Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction, or Modification Commenced After May 18, 1978 and Prior to July 23, 1984 Alternative means of limiting emissions
60.111b(f)(4) 60.114b 60.116b(e)(3)(iii) 60.116b(e)(3)(iv) 60.116b(f)(2)(iii)	Subpart Kb - Volatile Organic Liquid Storage Vessels (Including Petroleum Liquid Storage Vessels) for Which Construction, Reconstruction, or Modification Commenced After July 23, 1984 Alternative maximum true vapor pressure Alternative means of limiting emissions Alternative measure of vapor pressure Alternative calculation of vapor pressure Alternative measure of vapor pressure
60.153(e)	Subpart O - Sewage Treatment Plants Plan for monitoring and recording incinerator and control device operation parameters
60.194(d) NOTE:	Subpart S - Primary Aluminum Plants Alternative testing requirements (less frequently) Washington law gives Ecology sole authority to regulate Kraft and Sulfite Mills (WAC 173-405-012 and 173-410-012) on a State-wide basis. Therefore, local agencies in Washington are not delegated Subpart S.
NOTE:	Subpart BB - Kraft Pulp Mills Washington law gives Ecology sole authority to regulate Primary Aluminum Plants (WAC 173-415-010) on a State-wide basis. Therefore, local agencies in Washington are not delegated Subpart BB.
60.302(d)(3)	Subpart DD - Grain Elevators Alternative particulate matter emission controls
60.313(c)(1)(i)(B)	Subpart EE - Surface Coating of Metal Furniture Alternative transfer efficiencies
60.332(a)(4) 60.335(c)(1)	Subpart GG - Stationary Gas Turbines Development of customized factors - fuel nitrogen content Development of customized factors - adjusting nitrogen oxides emission level based on ambient air conditions
60.393(c)(1)(i)(C) 60.398	Subpart MM - Automobile and Light Duty Truck Surface Coating Operations Approval of alternative transfer coefficients Innovative Technology Waivers
60.446(c)	Subpart RR - Pressure Sensitive Tape and Label Surface Coating Operations Approval of testing of representative number of stacks rather than all stacks
60.453(b) 60.456(d)	Subpart SS - Industrial Surface Coating: Large Appliances Alternative procedures for estimating transfer efficiencies, volume of coating Approval of testing of representative number of stacks rather than all stacks
60.466(d)	Subpart TT - Metal Coil Surface Coating Approval of testing of representative number of stacks rather than all stacks
60.472(b)(5) 60.474(g)	Subpart UU - Asphalt Processing and Asphalt Roofing Manufacture Refers to 60.474(g) Alternative opacity standard
	Subpart VV - Equipment Leaks of VOC in the Synthetic Organic Chemicals Manufacturing

60.482-1(c)(2) 60.484	Industry Approval of alternative/equivalent means of emission limitation Approval of alternative/equivalent means of emission limitation
60.482-1a(c)(2) 60.484a(3)	Subpart VVa - Equipment Leaks of VOC in the Synthetic Organic Chemicals Manufacturing Industry for Which Construction, Reconstruction, or Modification Commenced After November 7, 2006 Approval of alternative/equivalent means of emission limitation Approval of alternative/equivalent means of emission limitation
60.493(b)(2)(i)(A) 60.496(c)	Subpart WW - Beverage Can Surface Coating Industry Alternative method for determining fraction of VOC emitted Shorter sampling times and approval of testing of representative number of stacks rather than all stacks
60.502(e)(6)	Subpart XX - Bulk Gasoline Terminals Approval of alternative procedures for gasoline tank truck loading
NOTE:	Subpart AAA - New Residential Wood Heaters Entire Subpart AAA may not be delegated (Wood Heater Program is administered entirely by EPA HQ. States can create rules that impose additional requirements for wood-burning appliances as part of their SIPs.)
60.543(c)(2)(ii)(B)	Subpart BBB - Rubber Tire Manufacturing Industry Approval of alternative test method - determining fraction of VOC at affected facility
60.562-2(c)	Subpart DDD - Volatile Organic Compound Emissions (VOC) from the Polymer Manufacturing Industry Approval of alternative method of emission limitation
60.592(c)	Subpart GGG - Equipment Leaks of VOC in Petroleum Refineries Approval of alternative method of emission limitation
60.592a(c)	Subpart GGGa - Equipment Leaks of VOC in Petroleum Refineries for Which Construction, Reconstruction, or Modification Commenced After November 7, 2006 Approval of alternative method of emission limitation
60.613(f)	Subpart III - VOC Emissions from the Synthetic Organic Chemical Manufacturing Industry (SOCMI) Air Oxidation Unit Processes Demonstration of compliance for use of other control devices
60.623	Subpart JJJ - Petroleum Dry Cleaners Equivalent equipment and procedures
60.632(c) 60.634	Subpart KKK - Equipment Leaks of VOC From Onshore Natural Gas Processing Plants Alternative means of emission limitation Alternative means of emission limitation
60.663(f)	Subpart NNN - VOC Emissions from the Synthetic Organic Chemical Manufacturing Industry (SOCMI) Distillation Operations Demonstration of compliance for use of other control devices
60.694	Subpart QQQ - VOC Emissions from Petroleum Refinery Wastewater Systems Permission to use alternative means of emission limitation
60.703(e)	Subpart RRR - VOC Emissions from the Synthetic Organic Chemical Manufacturing Industry (SOCMI) Reactor Processes Approval of use of control devices not described in regulation
60.711(a)(16) 60.713(b)(1)(i) 60.713(b)(1)(ii) 60.713(b)(5)(i) 60.713(d) 60.715(a) 60.716	Subpart SSS - Magnetic Tape Coating Facilities Alternative temporary enclosure Approval of measured value for RSi Approval of measurement techniques Approval of total enclosure Necessary operating specifications Plant coating formulation data equivalent to Method 24 Alternative means of limiting emissions
60.723(b)(1) 60.723(b)(2)(i)(C)	Subpart TTT - Industrial Surface Coating: Surface Coating of Plastic Parts of Business Machines Alternative test method - other than Method 24 Alternative transfer efficiencies

60.723(b)(2)(iv) 60.724(e) 60.725(b)	Determination of compliance - facilities using add-on controls Alternative recordkeeping and reporting - facilities using add-on controls Alternative test methods - to determine VOC content of coating
60.743(a)(3)(v)(A) 60.743(a)(3)(v)(B) 60.743(e) 60.745(a) 60.746 (also as referred to by 60.743(b)(1))	Subpart VVV - Polymeric Coatings of Supporting Substrates Facilities Approval of measured value for RSi Approval of measured value for RSi Approval of use of control device other than absorber, condenser, incinerator Approval of coating formulation data equivalent to Method 24 Permission to use alternative means of emission limitation
60.752(b)(2)(i)(C),(D)and 60.759(a) 60.754(a)(5) 60.756(d) 60.756(e)	Subpart WWW - Municipal Solid Waste Landfills Approval of alternative collection and control system design plan Approval of alternative methods for determining NMOC concentration or a site-specific k Approval of monitoring methods for operators seeking to comply with standards using something other than an open flare or an enclosed combustor Approval of monitoring methods for operators installing alternative collection systems
60.2025 60.2100(b)(2) 60.2115 Also: (60.2110)	Subpart CCCC - New Commercial and Industrial Solid Waste Incineration Units Approval of petition for exemption Approval to continue operation Approval of petition for specific operating parameters Approval of alternatives to the emission limitations in Table 1 and operating limits established under 60.2110
60.2887 60.2889(b) 60.2950 60.2962 60.2969(c)(2)	Subpart EEEE - Other Solid Waste Incineration Units for which Construction is Commenced After December 9, 2004, or for which Modification or Reconstruction is Commenced on or after June 16, 2006 Approval of petition for exemption/exclusion Approval of alternatives to emission limitations and operating limits Approval of alternative recordkeeping Approval of alternative reporting schedule Approval of continue operation
60.4211(d)(2) 60.4217 (a)	Subpart IIII – Stationary Compression Ignition Internal Combustion Engines Petition for alternative fuel Petition for alternative emission standard
60.4310(b) 60.4330(b) 60.4333(b)(2)	Subpart KKKK – Combustion Turbines Petition for NOx exemption Petition for determination of local accessibility of natural gas Petition for methods of apportioning combined energy output
NOTE:	Subparts BBBB, DDDD, FFFF and HHHH are guidelines, not standards

¹ For purpose of this enclosure, the terms in quotations have the meaning assigned to them in 40 CFR 63.90, which are also used for purposes of delegation under 40 CFR part 60 as provided in “How To Review and Issue Clean Air Act Applicability Determinations and Alternative Monitoring: New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants,” February 1999.
