

Northwest Clean Air Agency (NWCAA)

NEW SOURCE REVIEW FEE SCHEDULE

Approved by the NWCAA Board of Directors on February 11, 2010 under Resolution 427

<u>NEW SOURCE REVIEW FEES</u>	<u>AMOUNT</u>
Filing fee	\$1,060
NOC applicability determination	\$420
<u>New Source Review Fees in addition to the filing fee: For each new source as defined in NWCAA Regulation Section 200</u>	
General (not classified below)	\$420
Fuel burning equipment (as an aggregate):	
≥ 0.5 MM Btu per hour, but < 10 MM Btu per hour	\$420
≥ 10 MM Btu/hr, but < 100 MM Btu/hr	\$4,560
≥ 100 MM Btu/hr, but < 250 MM Btu/hr	\$9,010
≥ 250 MM Btu/hr	\$22,000
Composting facility	\$9,010
Asphalt plant	\$6,040
Refuse burning equipment:	
< 12 tons per day	\$4,350
≥ 12 tons per day, but < 250 tons per day	\$17,280
≥ 250 tons per day	\$43,140
<u>ADDITIONAL NEW SOURCE REVIEW FEES</u>	
	<u>AMOUNT</u>
Synthetic minor determination (e.g., WAC 173-400-091)	\$ 1,170
SEPA threshold determination (DNS)	\$640 *
SEPA threshold determination (MDNS)	\$1,270 *
SEPA threshold determination (DS)	\$2,540 *
	*(see note 4)
New major stationary source, major modification, or emission increase in one or more pollutants beyond PSD thresholds	\$4,350
An Agency request for inapplicability determination for PSD program requiring written applicability determination from Ecology (fee does not apply where facility files applicability determination request directly with Ecology)	\$4,350
Each stationary source subject to NSPS, per subpart, excluding 40 CFR 60 subpart Dc (exclusion only for steam generating units fired solely with gaseous fuel) and 40 CFR 60 Subpart AAA (residential wood heaters)	\$850
Each stationary source subject to NESHAP (Parts 61 or 63), per subpart, excluding 40 CFR 63 subpart M (dry cleaning) and 40 CFR 63 Subpart N (chrome plating)	\$850
Public notice required by NWCAA Regulation 305.1(B) or 305.2 (plus publication costs)	\$420
Public hearing (plus publication costs, if separate public notice)	\$420
Addition of CEM, COM, or alternate monitoring device required in OAC	\$850
Source test required in OAC	\$850
Bubble application	\$1,590
Netting analysis	\$850
Application of Title IV acid rain program requirements	\$3,710
Compliance staff review of application and draft OAC	\$180
Review of application that proposes landfill or digester gas combustion	\$2,230

Notes:

1. An application processed under Section 300.12 of the NWCAA Regulation requires payment of the NSR filing and SEPA (if applicable) fees only.
2. Fees for source tests and CEMs, COMS, or additional monitoring devices shall be assessed per emissions unit rather than per pollutant or monitoring device.
3. In the event that a new source review fee is paid, but the project to which the application applies is ultimately not pursued; an applicant may request a partial refund. The amount of the refund, if any, will be calculated based on the current fully loaded average hourly cost of staff and the estimate of time spent by such staff on the application. If this calculated amount is less than the total new source review fees paid, the Agency may refund the difference. Such a refund is solely at the discretion of the Director. In all cases a request for partial refund shall include a \$75.00 processing fee.
4. All SEPA fees identified above are minimum fees. In the event that the NWCAA determines that the scope of work will exceed minimum SEPA fee applicable, then the NWCAA shall so notify the applicant and thereafter the applicant shall pay to NWCAA such excess costs or expenses. The amount of such excess shall be calculated based on the current fully loaded average hourly cost of staff and the estimate of time spent by such staff in the SEPA review process, plus any and all costs and expenses incurred by NWCAA during such review including, but not limited to, costs related to environmental consultants or attorney fees. Additionally, the Control Officer is authorized to enter into a written cost-reimbursement agreement with an applicant as provided in RCW 70.94.085.
